

Enhancing energy security,
energizing growth

ExxonMobil in India

ExxonMobil

International energy powerhouse

50+
Countries

Across all our business lines, we explore and/or operate in more than 50 countries.

\$17
Billion

Investing nearly 17 billion USD on lower-emission initiatives from 2022 through to 2027.

Powering India's energy transformation

Putting cleaner energy to work for India

- Long-term supplies of reliable natural gas
- Alliances to pioneer new gas supply-chain models
- Collaborations with India's finest universities on lower-emission technologies

Innovative products boosting growth

- Energy-efficient Mobil lubricants that keep India on the move
- High-performance chemicals for safer, durable everyday products
- Future-ready lubricants for transforming industrial productivity

Global reach, local focus

- Give India the **cleaner-energy** advantage
- Deliver **cutting-edge materials** to boost manufacturing growth
- Make everyday travel faster & safer with **future-ready mobility solutions**
- Harness local capabilities to engineer **global technology solutions**
- Generate **economic opportunities** that advance local strengths

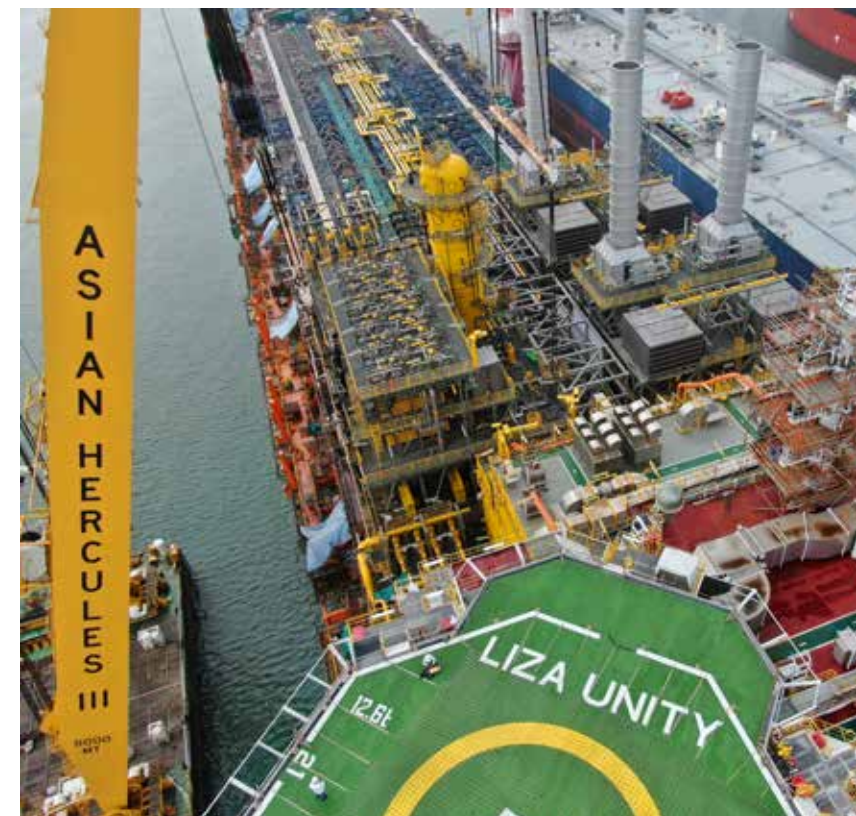

Engineering and tech solutions for energy savings

- Energy-efficiency upgrades for lowering emissions and costs
- Technologies to reduce energy wastage on the production floor
- Real-time remote surveillance and maintenance of production sites
- Enhanced data analytics and tech development

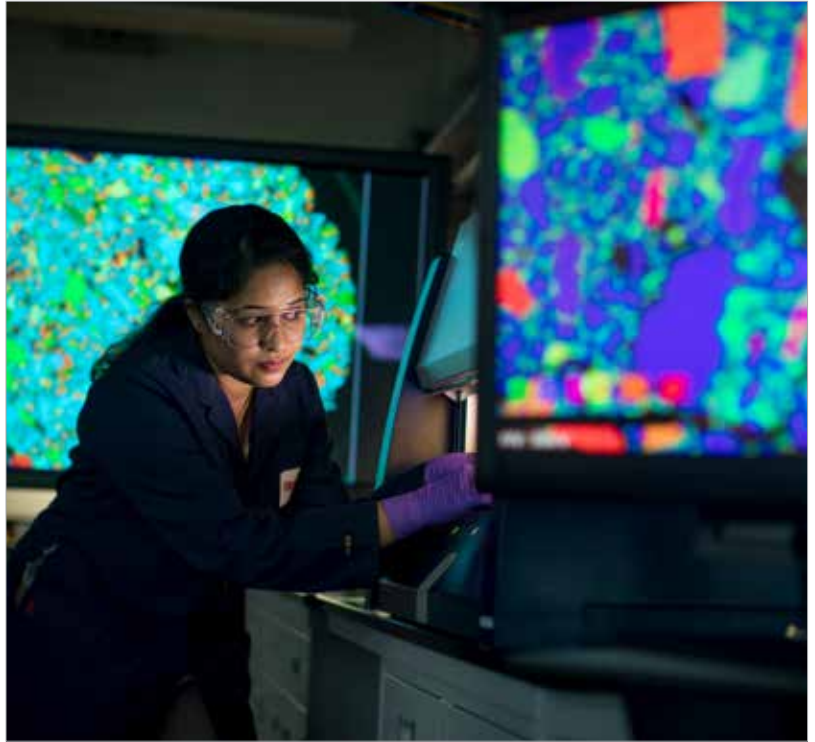

Energy solutions for India

- Liquefied natural gas (LNG)
- Performance lubricants like Mobil, Mobil Super, Mobil Super Moto and Mobil Delvac
- Vital chemicals like intermediates, specialty elastomers and butyl, plastics and resins
- Global Business Center and Technology Center for global projects, downstream and chemicals

Investing in India's talent

- 2000+ employees and growing
- Developing high-caliber tech talent
- Building specialized capabilities in collaboration with global expertise
- Flagship offices in Delhi, Mumbai, Bengaluru and Gurugram

Giving back

- Building healthcare capacities
- Enhancing STEM access for women
- Promoting awareness of local environmental challenges
- Technical skilling of youth from disadvantaged backgrounds
- Supporting high-impact organizations like United Way, Shanti Bhavan, Habitat for Humanity, SOS Children's Villages, Azad Foundation, and more
